COMMERCIAL PROPOSAL // TIER I

HAUTE IDENTITY & BESPOKE WEB PRESENCE

Editorial Luxury Aesthetics • Sub-Second Edge Performance • Bespoke Corporate Presence

Target Sector: Luxury Boutiques, Private Medical & Legal Practices, Haute Architecture	Timeline: 14 – 21 Business Days
Indicative Investment: €4,800 EUR Fixed	SLA & Sovereignty: 6 Months Dedicated SLA Included

1. EXECUTIVE SUMMARY & STRATEGIC MISSION

Tier I is engineered for luxury brands and executive practices that reject boilerplate WordPress templates and bloated frameworks. We architect a custom, hand-coded digital flagship combining high-fashion editorial typography, cinematic micro-interactions, silky smooth scrolling physics, and instant sub-second edge delivery. The result is an enduring digital asset that commands immediate prestige and delivers 100/100 Lighthouse benchmark scores.

2. ARCHITECTURAL STACK & PERFORMANCE ENGINE

Frontend Architecture	Hand-Crafted HTML5 / TypeScript / Modular ESNext (Zero Framework Bloat)
Motion & Physics	Lenis Smooth Scroll Engine, GPU-accelerated CSS Matrix Transforms, Custom Micro-Ripples
Typography & Editorial	Haute Couture Typography (Playfair / Cormorant / Cinzel / Bespoke Serifs)
Edge & Performance	Cloudflare Edge / Vercel Global Edge Network with Sub-250ms TTFB Globally
SEO & Social OpenGraph	100/100 Structured JSON-LD Schema, Dynamic High-Res OpenGraph Preview Cards
Inquiry & CRM Gateway	Encrypted Client Brief Dispatch with Email / WhatsApp / Direct API Hook

3. SCOPE OF DELIVERABLES & CORE MODULES

01	**Bespoke Brand Digital Identity**	High-fashion UI design system, custom iconography, luxury dark/light palette curation.
02	**Responsive Multi-Screen Flagship**	Pixel-perfect fluid layouts across UltraWide 4K monitors, MacBook Retina, and mobile.
03	**Interactive Service Showcase**	High-impact grid showcase presenting services, case studies, and brand narrative.
04	**Encrypted Brief & Inquiries**	Custom inquiry modal with NDA verification, corporate email dispatch, and instant lead capture.

05	**Sub-Second Performance Hardening**	Asset compression, WebP/AVIF vector pipelines, 100/100 Lighthouse certification.
06	**Production Edge Deployment**	DNS configuration, SSL certificate issuance, automated CI/CD pipeline setup.

4. ROADMAP & DELIVERY PHASES

Phase 1: Architecture & UI	5 Days	Design system definition, typography pairing, interactive Figma prototype sign-off.
Phase 2: Code & Interaction	10 Days	Hand-coded frontend implementation, smooth physics integration, responsive QA.
Phase 3: Hardening & Deploy	6 Days	Lighthouse 100/100 optimization, edge routing, DNS switchover, handover documentation.

5. COMMERCIAL INVESTMENT & COMMISSION STRUCTURE

TOTAL FIXED INVESTMENT TIER	DEPLOYMENT TERMS
€4,800 EUR **Equivalent: 9,388 BGN (Excl. VAT)**	• 40% Mobilization Deposit • 30% Mid-Phase Delivery • 30% Final Launch & Edge Cutover

6. IP OWNERSHIP & SOVEREIGN GUARANTEES

100% Client Intellectual Property: Upon final milestone release, all source code, WebGL shaders, 3D assets, design systems, and documentation are transferred in full to the client without third-party vendor lock-in.
Zero Dependency Bloat: Hand-crafted architecture with 0 unnecessary npm bloat, guaranteed 100/100 Lighthouse performance, sub-second edge distribution, and guaranteed sub-16ms render frames (60-120 FPS).
Executive SLA: Includes dedicated priority engineering support, monthly security patches, and direct architectural concierge access.
